

SCTE | **STANDARDS**

Digital Video Subcommittee

AMERICAN NATIONAL STANDARD

ANSI/SCTE 243-3 2022

**Next Generation Audio Carriage Constraints for Cable
Systems: Part 3 –MPEG-H Audio Carriage Constraints**

NOTICE

The Society of Cable Telecommunications Engineers (SCTE) Standards and Operational Practices (hereafter called “documents”) are intended to serve the public interest by providing specifications, test methods and procedures that promote uniformity of product, interoperability, interchangeability, best practices, and the long term reliability of broadband communications facilities. These documents shall not in any way preclude any member or non-member of SCTE from manufacturing or selling products not conforming to such documents, nor shall the existence of such standards preclude their voluntary use by those other than SCTE members.

SCTE assumes no obligations or liability whatsoever to any party who may adopt the documents. Such adopting party assumes all risks associated with adoption of these documents and accepts full responsibility for any damage and/or claims arising from the adoption of such documents.

NOTE: The user’s attention is called to the possibility that compliance with this document may require the use of an invention covered by patent rights. By publication of this document, no position is taken with respect to the validity of any such claim(s) or of any patent rights in connection therewith. If a patent holder has filed a statement of willingness to grant a license under these rights on reasonable and nondiscriminatory terms and conditions to applicants desiring to obtain such a license, then details may be obtained from the standards developer. SCTE shall not be responsible for identifying patents for which a license may be required or for conducting inquiries into the legal validity or scope of those patents that are brought to its attention.

Patent holders who believe that they hold patents which are essential to the implementation of this document have been requested to provide information about those patents and any related licensing terms and conditions. Any such declarations made before or after publication of this document are available on the SCTE web site at <https://scte.org>.

Document Release History

Release	Date
SCTE 243-3 2017	10/10/2017
SCTE 243-3 2022	October 2022

Note: Standards that are released multiple times in the same year use: a, b, c, etc. to indicate normative balloted updates and/or r1, r2, r3, etc. to indicate editorial changes to a released document after the year.

Table of Contents

Title	Page Number
NOTICE.....	2
Document Types and Tags.....	3
Document Release History	3
Table of Contents.....	4
1. Introduction.....	6
1.1. Executive Summary	6
1.2. Scope	6
1.3. Benefits	6
2. Normative References	6
2.1. SCTE References	6
2.2. Standards from Other Organizations	6
2.3. Other Published Materials	7
3. Informative References	7
3.1. SCTE References	7
3.2. Standards from Other Organizations	7
3.3. Other Published Materials	7
4. Compliance Notation	7
5. Abbreviations and Definitions.....	7
5.1. Abbreviations.....	7
5.2. Definitions.....	8
6. MPEG-H Audio Stream (MHAS)	8
6.1. Elementary stream data encapsulation into MHAS packets.....	8
6.2. Configuration Change and Audio/Video Alignment.....	8
6.3. Multi-Stream delivery	9
7. MPEG-H Audio in MPEG-2 Transport Streams	9
7.1. Introduction.....	9
7.2. MPEG-H Audio Stream (MHAS)	9
7.2.1. PES Constraints.....	9
7.2.2. Configuration change and Audio/Video Alignment	10
7.2.3. Multi-stream delivery	10
7.3. Random Access Points	10
7.3.1. MHAS Random Access Constraints	10
7.3.2. MPEG-2 Transport Stream Random Access Constraints and Signaling.....	10
7.3.3. Time Intervals between Random Access Points	11
7.4. PES Packet stream_id and stream_type	11
7.5. STD Audio Buffer Size	11
7.6. Signaling of MPEG-H Audio in MPEG-2 Transport Streams	11
7.6.1. MPEG-H_3dAudio_descriptor.....	11
7.6.2. audio_preselection_descriptor	12
7.6.3. emergency_information_descriptor.....	12
7.6.4. Accessibility Information	12
8. MPEG-H Audio in MPEG DASH	13
8.1. Introduction.....	13
8.2. MPEG-H Audio Stream (MHAS)	13
8.3. ISOBMFF Encapsulation.....	13
8.3.1. MPEG-H Audio Sample Entry	13
8.3.2. Random Access Point and Stream Access Point	14
8.3.3. Configuration Change	14
8.3.4. Multi-stream delivery	14

8.4.	Signaling of MPEG-H Audio in MPEG DASH	14
