

The attached SMPTE Engineering Document has been declared “Stable” by the controlling Technology Committee.

The SMPTE Operations Manual for Standards states:

A document should be stabilized if it is believed to be substantially correct, does not contain harmful or misleading recommendations, may still be relevant to equipment or practices in use, is stable, but does not represent current technology, and need not be subject to future reviews.

A Stable document shall still be made available and offered for sale by the Society, but it shall be prefaced by a cover page explaining its current status.

At any time, a Technology Committee may revise, amend, or otherwise initiate a new Project on a Stable document.

A Stable document is “In Force”, and not deprecated or withdrawn.

*** * * * ***

Note:

SMPTE “Stable” documents were previously described as “Archived” and the attached document may be marked as “Archived”. The status of a SMPTE document described as “Archived” is exactly as described above for a “Stable” document.

Stable documents may not adhere to the latest style and format of SMPTE documents, or to current usage of normative language. Suitable care should be taken in interpretation.

SMPTE STANDARD

ANSI/SMPTE 37M-1994

Revision of
ANSI/SMPTE 37M-1987

for Motion-Picture Equipment — Raw Stock Cores

Page 1 of 3 pages

1 Scope

This standard specifies the recommended sizes and dimensions of raw stock cores for 8-, 16-, 35-, 65-, and 70-mm motion-picture films.

2 Dimensions

The dimensions of all cores shall be as given in figure 1 and table 1.

3 Concentricity allowance

The concentricity of the inside and outside diameters of the core shall be as specified in figure 1.

4 Drive holes in 35-mm × 125-mm cores

Cores of 35-mm × 125-mm shall have eight drive holes with dimensions and locations as shown in figure 2 and table 2.

Figure 1 – Core

CAUTION NOTICE: This Standard may be revised or withdrawn at any time. The procedures of the Standard Developer require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of publication. Purchasers of standards may receive current information on all standards by calling or writing the Standard Developer.
