## 1. Scope

This specification deals with the manufacture and installation of fences and their accessories. General specifications indicate what the Company considers as an acceptable minimum. However, some supplies and/or works may be of a particular nature.

In this case, the Company reserves the right to modify or supplement general specifications by particular specifications.

## 2. Reference documents

The reference documents listed below form an integral part of this General Specification.

The reference documents listed below form an integral part of this General Specification. Unless otherwise stipulated, the applicable version of these documents, including relevant appendices and supplements, is the latest revision published at the EFFECTIVE DATE of the CONTRACT.

When local national standards, regulations and codes exist, all design, engineering, materials and construction shall conform to their latest requirements, which complete or modify the present specifications.

In case of lack of mandatory local national standards, international norms and standards will be applied.

In case of lack of international norms and standards, national norms and standards listed hereafter will be applied.

In all cases the system adopted shall be consistent, i.e. the various texts shall present no incompatibility. Any dispute shall be resolved by basing works on the most stringent text for the Construction Contractor and at his expense.

The list of specifications and norms quoted is not exhaustive: the Contractor shall respect the secondary standards and regulations, which cover the works described in the present specification.

Certain specifications and norms may be indicated with an issue date. This is for information only and on the understanding that the most recent issue shall be used.

### External Documents

Unless otherwise stipulated, the applicable version of these documents, including relevant appendices and supplements, is the latest revision published at the effective date of this document.

| Reference | Title                                                                           |
|-----------|---------------------------------------------------------------------------------|
| ASTM A116 | Specification for Metallic-Coated Steel Woven Wire Fence Fabric                 |
| ASTM A121 | Specification for Zinc-Coated (Galvanized) Steel Barbed Wire                    |
| ASTM A123 | Specification for Zinc (Hot-Dip Galvanized) Coatings on Iron and Steel Products |
| ASTM A392 | Specification for Zinc-Coated Steel Chain-Link Fence Fabric                     |
