General Specification		GS EP POS 009
Positioning representatives		
Rev.: 02	Effective date: 06/2015	Page: 3 of 8

1. Scope

Company requires the need of experts in geodesy, topography, positioning and surveying in marine, deep water, terrestrial or airborne domains to act as positioning representative on behalf of the Company (referred as Supervision Contractor (SC) to supervise and validate the positioning activities performed by Positioning Contractor.

Such activities (henceforth referred to the Positioning Work) are performed within more general exploration and production activities such as but not limited to seismic, drilling or construction (henceforth referred to the Work).

The objectives of this Specification are:

- To set out the minimum requirements of the SC Representative(s) during the Positioning Work

and

- to provide a framework for the briefing, debriefing and reporting of the SC Representative(s)

This specification is to be used in conjunction with [GS EP POS 001](#), [GS EP POS 002](#), [GS EP POS 003](#) and [GS EP POS 004](#) as well as the Company project specification.

2. Reference documents

The reference documents listed below form an integral part of this General Specification.

External Documents

Unless otherwise stipulated, the applicable version of these documents, including relevant appendices and supplements, is the latest revision published at the effective date of this document.
