Anchorage for support vessel on an offshore site

Rev.: 04

Effective date: 05/2015

Page: 3 of 8

1. Scope

This specification does not apply to service vessels, unless used for specific operations such as diving, construction work, maintenance, hook-up, transportation of large packages, etc. requiring multiple points anchoring. Nor does it apply to anchorings outside of an area of 500 m around oil structures.

All regulations shall apply in accordance with application orders.

2. Reference documents

The reference documents listed below form an integral part of this General Specification.

The definitions and particular technical provisions concerning anchoring shall, where necessary, be specified in the construction job specification of the structure requiring the anchoring.

Unless otherwise indicated in specific contractual conditions, for all documents cited for reference and their addenda, the latest issue applies.

Where national regulations exist, their provisions and those of the standards and codes to which they refer shall apply, supplementing or amending the provisions of this document.

If there are no national regulations covering all or part of the subject of this document, the reference documents shall be strictly applied, as supplemented by the provisions of this document.

Only the main reference documents are mentioned; the Contractor shall be responsible for complying with all secondary reference documents dealing with the subject of this document.

External Documents

Unless otherwise stipulated, the applicable version of these documents, including relevant appendices and supplements, is the latest revision published at the effective date of this document.
