## Summary

This leaflet governs the compilation and dispatch of reservation lists by electronic means. For the purposes of this leaflet, a reservation list is defined as a document describing clearly the transport services which are valid for a given railway company for a defined period.

The reservation list is the reference file for manual and electronic issuing of reservation vouchers.

This leaflet supplements *UIC Leaflet 170* "Regulations governing production of manual reservation vouchers" as well as *UIC Leaflet 918-0* "Electronic reservation of seats/berths and electronic production of transport documents - General provisions".
