5.2.2 - Values of supplementary margins.....	9
5.2.3 - Distribution of supplementary margins.....	9
6 - Information for train drivers and traffic-control staff concerning available margins	10
Bibliography	11

Summary

The purpose of this leaflet is to set out uniform provisions for the recovery margins applied when timetables are prepared in order to guarantee punctuality for services on international passenger and freight traffic lines and to issue recommendations concerning the railways' domestic traffic.

Likewise, the technical departments responsible for permanent-way maintenance should be given information about timings in order for them to be able to organise their work.
