3.2 - Platform along sections of track with a high degree of cant	6
3.3 - Safety measures.....	6
Appendix A - Examples of rolling stock doorways compatibility with platforms of different height.....	7
Bibliography	8

Summary

Application of the regulations in this leaflet will ensure that platforms are better adapted to the heights of the steps on passenger trailing stock. Furthermore, a standard reference point is thereby created for future designs of new rolling stock. Its application will be of benefit to the majority of passengers, particularly the disabled, the elderly and children.
