

Pre-Application Traffic Light System Form

Please complete this form online (preferred method) then print, sign and submit as instructed.
Alternatively, print, then complete in BLOCK CAPITALS using black or dark blue ink.

APPLICANT DETAILS

Name (company name if applicable):

Registered company number (if applicable):

Address:

Telephone:

Email:

1. What is the name and status of the entity proposing to operate the space system to be licensed?

2. What is the name/designation of the planned launch system and the associated launch site/range, and who will have jurisdiction over the launch?

3. What are the injection and operational orbits of associated stages/platforms, and what measures are planned to avoid interference with other space objects, and remove the platforms at the end of the operational life?

4. Are there multiple platforms on the launch, and if so, what are they, and who is responsible for them?

5. What are the durations of the different phases of the mission, and are there any novel aspects of (e.g. orbit raising/ rendezvous manoeuvres)?

6. What is the primary operational function of the platform and its payload(s), and if there are secondary functions, please confirm these?

7. Does the platform/bus conform to an internationally recognised/industrial standard, and if so, please provide information on the nature of its specification (design/performance)?

8. What is the range of times and dates for launch epoch and the constraints on the associated launch window?

9. Will the platform operate independently or is it planned to as part of a wider system such as a constellation or fleet of spacecraft acting in a collective/coordinated/cooperative manner?

10. If re-entry will occur, is it controlled or uncontrolled, and what measures are planned to avoid any significant impact hazard on the ground?
