1 Introduction

1.1 Each year CAA regularly promulgates NOTAM notifying airspace users of firework displays that are likely to have an impact on aviation safety. During early November, the number of such events increases significantly as the UK celebrates 'Guy Fawkes Night', and this leads to a consequential increase in the number of NOTAM in circulation. Between 31 October 2014 and 9 November 2014, those firework displays that will continue to be subject to NOTAM action will include:

- Displays conducted within close proximity to licensed aerodromes; and
- Displays that exceed 1,000ft Above Mean Sea Level (AMSL) irrespective of their location.

1.2 In order to reduce the number of NOTAM during this busy period, displays taking place between 31 October 2014 and 9 November 2014 which are some distance from licensed aerodromes, and expected to reach altitudes of less than 1,000 ft AMSL, will be available on the CAA website at: [Firework Displays 2014](#).

2 Scope

2.1 Pilots and Air Traffic Service providers are encouraged to use the information sheet as part of their pre-flight or pre-watch briefing.

3 Further Information

- 3.1 The above link will also be added to the NATS Aeronautical Information Service website and included on a NOTAM that will be issued to notify of the availability of this information.
