1. Introduction

- 1.1 CAA International (CAAi) is pleased to announce the introduction of this new training course title within our training portfolio. This course is accredited by the Institute of Risk Management and has been developed in cooperation with KRisk.

2. Scope

- 2.1 This 2 day course provides the fundamental principles of risk management using an integrated approach. It provides the relevant knowledge and skills required for you and your business to manage risk systematically to improve performance within all areas of your organisation to maximise all opportunities and minimise all threats.

Delegates will benefit from real Aviation case studies and interactive multimedia that will bring the subject to life and caters for all learning styles to enable learners to make more informed transparent decisions that become embedded in the daily operational rhythm of your organisation.

- 2.2 By the end of this course participants will demonstrate an understanding of the following through presentation and interactive discussion:
- How enterprise risk management can be used to support your organisation in achieving its objectives and targets
 - Effectively assess risk, to select appropriate risk treatment measures and understand risks are not always bad!
 - Benefits of risk management and its relationship with business continuity, governance, social responsibility and sustainability.
 - Influencing and improving operational management, quality and risk performance through the framework of an integrated risk management system.

- The importance of incorporating business continuity into the enterprise risk framework to ensure your organisation can withstand the worst.

2.3 Key Topics

- Introduction to Risk Management Principles
- Risk Management framework and embedding a positive risk culture
- Risk Management Process
