

Subject 1026

May 25, 2018

SUMMARY OF TOPICS

The following topic for the Standard for Household Electric Cooking and Food Serving Appliances, UL 1026, is being recirculated:

1. Withdrawal of Proposal: Topic 2 - Revision to smart enabled appliances to remove the requirement for a visible indication when the product is in smart enabled mode

STP BALLOTS AND COMMENTS DUE: JUNE 24, 2018

1. Withdrawal of Proposal: Topic 2 - Revision to smart enabled appliances to remove the requirement for a visible indication when the product is in smart enabled mode

RATIONALE

Responses to comments have been posted within the UL 1026 Proposal Review Work Area dated 2017-10-13. The author for Topic 2 of the 2017-10-13 proposal wishes to withdraw their proposal. Per the Regulations Governing ANSI/UL Standards Technical Panels, since the proposal achieved consensus the Topic is being Recirculated to the STP to determine agreement with the withdrawal of the proposal.

STP members, please note that the proposed action on this proposal has changed significantly. Voting "Yes" means you are in favor of maintaining the currently published requirements in the standard.

PROPOSAL

If the 2017-10-13 proposal is withdrawn, the current requirements in the standard would remain unchanged as shown below:

SA2.6.4 An indicator that is visible during normal use shall be provided to indicate when the product is in smart enabled mode and can receive external communications or data.
