UL Standard for Safety for Low-Voltage AC and DC Power Circuit Breakers Used in Enclosures, UL 1066
Fourth Edition, Dated April 13, 2012

Summary of Topics

This new edition of UL 1066 is being issued to reflect the ANSI approval of the Fourth Edition of the Standard for Low-Voltage AC and DC Power Circuit Breakers Used in Enclosures, incorporating updated references to the most current standards

The revised requirements are substantially in accordance with Proposal(s) on this subject dated February 3, 2012.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

The requirements in this Standard are now in effect, except for those paragraphs, sections, tables, figures, and/or other elements of the Standard having future effective dates as indicated in the note following the affected item. The prior text for requirements that have been revised and that have a future effective date are located after the Standard, and are preceded by a "SUPERSEDED REQUIREMENTS" notice.

The following table lists the future effective dates with the corresponding reference.

Future Effective Date	Reference
April 13, 2017	Entire Standard

APRIL 13, 2012

ANSI/UL 1066-2012

1

UL 1066

Standard for Low-Voltage AC and DC Power Circuit Breakers Used in Enclosures

First Edition – January, 1985
Second Edition – March, 1993
Third Edition – May, 1997

Fourth Edition

April 13, 2012

The most recent designation of ANSI/UL 1066 as an American National Standard (ANSI) occurred on April 13, 2012. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page (front and back), or the Preface.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.
