UL Standard for Safety for Fire Tests of Fire Resistant Pipe Protection Systems Carrying Combustible Liquids, UL 1489

First Edition, Dated September 22, 2016

Summary of Topics

This First Edition of UL 1489 covers products such as, but not limited to, sleeve, wrap or spray-on type fire protection systems applied over or on to rigid piping networks typically consisting of short sections of thick wall pipe connected with threaded or welded fittings that are assembled on site. It also describes a standard test method to develop the data necessary for evaluating fire resistive pipe protection systems for specific applications.

The new requirements are substantially in accordance with Proposal(s) on this subject dated July 15, 2016.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

UL 1489

**Standard for Fire Tests of Fire Resistant Pipe Protection Systems Carrying
Combustible Liquids**

First Edition

September 22, 2016

This ANSI/UL Standard for Safety consists of the First Edition.

The most recent designation of ANSI/UL 1489 as an American National Standard (ANSI) occurred on September 22, 2016. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, or effective date information.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

CONTENTS

INTRODUCTION

1 Scope	4
2 Units of Measurement	5
3 Undated References	5
4 Glossary	6

PERFORMANCE

5 Fire Exposure Test	6
5.1 Test sample	6
5.2 Conditioning	7
5.3 Protection of assembly and sample	7
5.4 Furnace temperature control and measurement	8
5.5 Furnace thermocouple preparation	9
5.6 Sample temperature measurement	9
5.7 Differential pressure measurements	11
5.8 Duration of test	12
6 Hose Stream Test	12
7 Leakage Test	13

CONDITIONS OF ACCEPTANCE

8 General	13
8.1 Fire exposure	13
8.2 Thermal protection	13
8.3 Correction – fire exposure test	13
8.4 Leakage	14

REPORT

9 Results	14
10 Application of Results	15
11 Other Reference Material	15
