UL Standard for Safety for Compressed Gas Regulator Accessories, UL 252A

Fourth Edition, Dated September 16, 2010

Summary of Topics

This new edition of ANSI/UL 252A includes revisions to 12.4. to clarify the excess-pressure test by specifying that the air inlet port can be charged with air or nitrogen and to allow an alternate test method.

The revised requirements are substantially in accordance with Proposal(s) on this subject dated December 18, 2009 and March 12, 2010.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

The requirements in this Standard are now in effect, except for those paragraphs, sections, tables, figures, and/or other elements of the Standard having future effective dates as indicated in the note following the affected item. The prior text for requirements that have been revised and that have a future effective date are located after the Standard, and are preceded by a "SUPERSEDED REQUIREMENTS" notice.

ANSI/UL 252A-2010

1

UL 252A

Standard for Compressed Gas Regulator Accessories

First Edition – July, 1991

Second Edition – June, 1996

Third Edition – November, 2003

Fourth Edition

September 16, 2010

This ANSI/UL Standard for Safety consists of the Fourth Edition.

The most recent designation of ANSI/UL 252A as an American National Standard (ANSI) occurred on September 16, 2010. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, or effective date information.

The Department of Defense (DoD) has adopted UL 252A on August 12, 2002. The publication of revised pages or a new edition of this Standard will not invalidate the DoD adoption.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.
