

SUMMARY OF TOPICS

The following topics were discussed at the meeting of the Standards Technical Panel for Chemical and Particle Emissions from 3D Printers, STP 2904:

1. Discussion of any remaining questions/comments from STP members before the draft is issued for ballot.

A virtual meeting of the Standards Technical Panel of UL for Chemical and Particle Emissions from 3D Printers, STP 2904, was held on June 21, 2018, via web/teleconference. The purpose of the meeting was to answer any remaining questions/comments from STP members before the draft is issued for ballot.

The purpose of the STP meeting report is to briefly summarize discussions held during the meeting, and to document any resulting outcomes, including planned future action.

CALL TO ORDER AND ANNOUNCEMENTS

The STP Chair, Deb Prince, called the meeting to order at 8:02 am EDT on June 21, 2018. A list of the attendees at the meeting is at the end of this report.

REPORTS FROM THE STP PROJECT MANAGER

The current balance of the STP is shown in the following table:

Interest Category	Number of Members	Interest Category	Number of Members
Producers	5 (16%)	Government	6 (19%)
Testing & Standards Organizations	2 (6%)	Consumer	1 (3%)
Supply Chain	4 (13%)	General Interest	10 (32%)
AHJs	0 (0%)	Commercial/Industrial User	4 (13%)

UL's goal is to have no interest category comprise more than one-third of the STP membership.

FUTURE MEETING SCHEDULE

Future meetings will be scheduled on an as-needed basis. An updated draft will be distributed to the STP via email for review and comment. Review of the written comments will determine the need for an additional virtual meeting before the draft is issued for ballot.

DISCUSSION OF PROPOSALS AND AGENDA TOPICS

1. Discussion of any remaining questions/comments from STP members before the draft is issued for ballot.

DISCUSSION

The latest draft Standard, with highlighted changes based on the Action Items from 5/25/18 STP meeting was posted in the Meeting Area under Supporting Documentation.

At the meeting the changes were reviewed. Items that changed based on the meeting discussions are shown below. For any comments or suggested changes that are not called out in this report, no changes were made.

Reference	STP Discussion / Recommendation
5.5	The latest changes were inadvertently left out of the draft. They will be included in the updated draft to be distributed after the meeting.
6.3	This paragraph will be clarified to indicate that the feedstock in the device is to be as specified in the manufacturer's instruction manual or website.
9.1	The latest changes were inadvertently left out of the draft. They will be included in the updated draft to be distributed after the meeting.
12.2	Since the recommended default setting is set as office environment, the columns for "School" and "Residential" will be moved from the Table in 12.2 to an Appendix to avoid confusion.
13.1	We will add a link to a website that identifies organizations that are accredited to ISO 17065.
13.2	This paragraph will be clarified to note that a laboratory can be affiliated with a manufacturer but that the testing data must be 3rd-party verified.
