

JOINT CANADA-UNITED STATES
NATIONAL STANDARD

ANSI/CAN/UL 448:2025

STANDARD FOR SAFETY

Centrifugal Stationary Pumps for Fire-
Protection Service

SCC FOREWORD

National Standard of Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at www.scc.ca.

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at www.scc.ca.

UL Standard for Safety for Centrifugal Stationary Pumps for Fire-Protection Service, ANSI/CAN/UL 448

Twelfth Edition, Dated March 30, 2020

Summary of Topics

This revision of ANSI/CAN/UL 448 dated January 16, 2025, includes Update to Wear Ring Material Wording: [7.14](#) and [16.1](#).

Text that has been changed in any manner or impacted by ULSE's electronic publishing system is marked with a vertical line in the margin.

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated August 2, 2024 and December 9, 2024.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of ULSE Inc. (ULSE).

ULSE provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will ULSE be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if ULSE or an authorized ULSE representative has been advised of the possibility of such damage. In no event shall ULSE's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold ULSE harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

ANSI/CAN/UL 448:2025

Standard for Centrifugal Stationary Pumps for Fire-Protection Service

First Edition – November, 1942
Second Edition – November, 1956
Third Edition – October, 1967
Fourth Edition – April, 1974
Fifth Edition – November, 1975
Sixth Edition – February, 1980
Seventh Edition – November, 1984
Eighth Edition – September, 1994
Ninth Edition – September, 2004
Tenth Edition – June, 2007
Eleventh Edition – October, 2017

Twelfth Edition

March 30, 2020

This ANSI/CAN/UL Safety Standard consists of the Twelfth Edition including revisions through January 16, 2025.

The most recent designation of ANSI/UL 448 as an American National Standard (ANSI) occurred on January 16, 2025. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, Preface or SCC Foreword.

This standard has been designated as a National Standard of Canada (NSC) on January 16, 2025.
