

UNDERWRITERS LABORATORIES CERTIFICATION REQUIREMENT DECISION

This Certification Requirement Decision is prepared and published by Underwriters Laboratories (UL). It is normative for the applicable UL Product Certification Program(s); however, it is currently not part of the UL Standard(s) referenced below.

Product Category (CCN): ZMVV
Standard Number: UL 486A-486B
Edition Date: November 15, 2003
Edition Number: 1
Section / Paragraph Reference: 6.2.5 and 6.2.6

DECISION:

The VW1 rating is not sufficient. The tubing would need to comply with the Flammability requirements for a V2 rating as a minimum as tested on bar samples per UL 94 or the tubing assembled with wire would need to be subjected to the End Product Glow Wire test per 6.2.6.

RATIONALE FOR DECISION:

The VW1 rating on the insulating tubing is performed differently and looks for different parameters. Therefore it cannot be considered equivalent to a V2 rating.
