UL Standard for Safety for Protectors for Data Communications and Fire-Alarm Circuits, UL 497B

Fourth Edition, Dated June 14, 2004

Summary of Topics

This revision of ANSI/UL 497B is being issued to reaffirm ANSI approval of the Standard.

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin. Changes in requirements are marked with a vertical line in the margin and are followed by an effective date note indicating the date of publication or the date on which the changed requirement becomes effective.

The revisions are substantially in accordance with Proposal(s) on this subject dated October 26, 2012

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

The requirements in this Standard are now in effect, except for those paragraphs, sections, tables, figures, and/or other elements of the Standard having future effective dates as indicated in the note following the affected item. The prior text for requirements that have been revised and that have a future effective date are located after the Standard, and are preceded by a "SUPERSEDED REQUIREMENTS" notice.

UL 497B

Standard for Protectors for Data Communications and Fire-Alarm Circuits

Prior to the first edition, the requirements for the products covered by this standard were included in the Standard for Protectors for Communications Circuits, UL 497.

First Edition – January, 1987
Second Edition – December, 1993
Third Edition – February, 1999

Fourth Edition

June 14, 2004

This ANSI/UL Standard for Safety consists of the Fourth Edition including revisions through December 17, 2012.

The most recent designation of ANSI/UL 497B as a Reaffirmed American National Standard (ANS) occurred on December 17, 2012. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, or effective date information.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <http://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.

INTRODUCTION

1 Scope	5
2 General	5
2.1 Components	5
2.2 Units of measurement	6
2.3 Undated references	6
3 Glossary	6

CONSTRUCTION

4 General	7
5 Enclosures	7
5.1 General	7
5.2 Sheet metal	7
5.3 Nonmetallic	8
6 Corrosion Protection	10
7 Field-Wiring Connections	10
7.1 General	10
7.2 Field-wiring terminals	10
7.3 Applique' units	11
8 Components	11
8.1 General	11
8.2 Arrester assemblies	12
8.3 Electrical insulation material	12
9 Spacings	12
10 Fuses	13

PERFORMANCE

11 General	13
12 Strike Voltage Breakdown Test	15
13 Endurance Conditioning	15
14 Temperature Test	15
15 Variable Ambient Conditioning	16
16 Humidity Conditioning	16
17 Dielectric Voltage-Withstand Test	16
18 Vibration Conditioning	17
19 Jarring Test	17
20 High Temperature Test	18
21 Discharge Test	19
22 Repeated Discharge Test	19
23 Polymeric Materials Tests	20
23.1 General	20
23.2 Distortion	20
23.3 Flame	20
24 Lead Strain-Relief Test	21
