SCC FOREWORD

National Standard of Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at www.scc.ca.

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at www.scc.ca.

UL Standard for Safety for Flexible Metallic Hose, ANSI/CAN/UL 536

Eleventh Edition, Dated August 9, 2021

Summary of Topics

This new edition of ANSI/CAN/UL 536 has been issued to reflect the latest ANSI and SCC approval dates, and to incorporate the proposals dated April 9, 2021.

The new requirements are substantially in accordance with Proposal(s) on this subject dated April 9, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

ANSI/UL 536-2021

AUGUST 9, 2021

1

ANSI/CAN/UL 536:2021

Standard for Flexible Metallic Hose

First Edition – August, 1958
Second Edition – January, 1963
Third Edition – July, 1970
Fourth Edition – February, 1972
Fifth Edition – December, 1976
Sixth Edition – August, 1984
Seventh Edition – April, 1989
Eighth Edition – December, 1993
Ninth Edition – July, 1997
Tenth Edition – December, 2014

Eleventh Edition

August 9, 2021

This ANSI/CAN/UL Safety Standard consists of the Eleventh Edition.

The most recent designation of ANSI/UL 536 as an American National Standard (ANSI) occurred on August 9, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, Preface or SCC Foreword.

This standard has been designated as a National Standard of Canada (NSC) on August 9, 2021.
