

Subject UL 539

April 13, 2018

SUMMARY OF TOPICS

The following changes in requirements to the Standard for Safety for Single and Multiple Station Heat Alarms, UL 539, are being proposed:

1. Graph Modification for Fire Test Temperature Profile

STP BALLOTS AND ALL COMMENTS DUE: May 14, 2018

UL's goal is to have no interest category comprise more than one-third of the STP membership balance. To improve the current balance for STP 521, UL is looking for participants in the AHJ, Commercial / Industrial Users, Supply Chain, Testing & Standards Org. interest categories. Definitions for these interest categories are available on the Standards STP Internet site:

<http://ulstandards.ul.com/develop-standards/participation/interest-categories/>

If you are interested in applying for STP 521 membership or are aware of potential candidates for this STP, please contact the STP Project Manager, paul.e.lloret@ul.com.

For your convenience in review, proposed additions to existing requirements are shown under "Proposed" and proposed deletions are shown under "Current".

1. Graph Modification for Fire Test Temperature Profile

RATIONALE

Proposal submitted by: Scott Lang, Honeywell

This proposal aims to align Figure 27.1 from UL 539 with the newly updated Figure 20.1 from UL 521 because they should be the same for consistency.
