National Differences For

UL 60745-2-17

Hand-Held Motor-Operated Electric Tools - Safety - Part 2-17: Particular Requirements for Routers and Trimmers

Edition: 3

Edition Date: February 25, 2011

The revisions dated March 25, 2011 are being issued to address editorial and administrative issues including update of the title page and preface page. UL and CSA are committed to updating this harmonized standard jointly. However, these revisions involve changes to the UL document only.

UL 60745-2-17 is an adoption of IEC 60745-2-17, Hand-Held Motor-Operated Electric Tools – Particular Requirements for Routers and Trimmers (Third Edition, issued May 2010). Please note that the national difference document incorporates all of the U.S. national differences for UL 60745-2-17 including the new national differences itemized below.

1. Addition of a national difference, Clause M.8.12.2DV to require that the instruction manual provide information explaining the purpose for locking the actuator and the means available to lock it.

2. Addition of a national difference, Clause M.21.18DV to require a locking mechanism and provide a number of acceptable means for locking the actuator.

Note: The national difference for Clause 8.12.1 in the previous edition, Clause 8.12.1DV has been deleted in this edition of the standard.

This document provides a single listing of the National Differences included in the UL adoption of the corresponding IEC standard.
