

Subject 61010-2-033

September 14, 2018

SUMMARY OF TOPICS

The following is being proposed:

1. Reaffirmation and Continuance of the First Edition of the Standard for Electrical Equipment for Measurement, Control, and Laboratory Use - Part 2-033: Particular Requirements for Laboratory Equipment for Hand-Held Multimeters and Other Meters, for Domestic and Professional Use, Capable of Measuring Mains Voltage, UL 61010-2-033, as an American National Standard no National Differences.

STP BALLOTS AND ALL COMMENTS DUE: OCTOBER 29, 2018

UL's goal is to have no interest category comprise more than one-third of the STP membership balance. To improve the current balance for STP 3102, UL is looking for participants in the Supply Chain, Commercial/Industrial User, AHJ, Government, Testing & Standards, and International Delegate interest categories. Definitions for these interest categories are available on the Standards STP Internet site:

<http://ulstandards.ul.com/develop-standards/participation/interest-categories/>

If you are interested in applying for STP 3102 membership or are aware of potential candidates for this STP, please contact the STP Project Manager, Vickie.T.Hinton@ul.com.

RATIONALE

Proposal submitted by: Brad Schmidt, STP 3102 Chair

UL is proposing to reaffirm the ANSI approval of UL 61010-2-033. The status of ANSI approval is required to be updated by a positive, consensus reaffirmation of the standard by the STP if the standard has not been otherwise updated in the consensus process during the preceding five years.

UL is seeking only to maintain the currently published requirements in UL 61010-2-033 as an American National Standard. There are no new revisions being proposed at this time. A reaffirmation is a Yes / No vote provided by the STP on whether or not to reaffirm the standard "as is." Any specific comment on the standard or proposed change to the standard should be submitted as a new Proposal Request in CSDS for future consideration.

PROPOSAL

UL is proposing to reaffirm the ANSI approval of the First Edition of the Standard for Electrical Equipment for Measurement, Control, and Laboratory Use - Part 2-033: Particular Requirements for Laboratory Equipment for Hand-Held Multimeters and Other Meters, for Domestic and Professional Use, Capable of Measuring Mains Voltage, UL 61010-2-033. To view the current standard, click on the Standard under the "Quick View" menu on the right hand side of the work area screen in CSDS.
