

JOINT CANADA-UNITED STATES
NATIONAL STANDARD

ANSI/CAN/UL 668:2025

STANDARD FOR SAFETY

Hose Valves for Fire-Protection Service

SCC FOREWORD

National Standard of Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at www.scc.ca.

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at www.scc.ca.

UL Standard for Safety for Hose Valves for Fire-Protection Service, ANSI/CAN/UL 668

Eleventh Edition, Dated March 19, 2025

Summary of Topics

This new Eleventh Edition of ANSI/CAN/UL 668 dated March 19, 2025, moves the necessary requirements from the existing ULC/ORD 668 to UL 668, resulting in a new joint Standard reflecting the latest ANSI and SCC approval dates and incorporating the proposal dated September 13, 2024 and January 3, 2025.

The new requirements are substantially in accordance with Proposal(s) on this subject dated September 13, 2024 and January 3, 2025.
