

UNDERWRITERS LABORATORIES INC. CERTIFICATION REQUIREMENT DECISION

This Certification Requirement Decision is prepared by UL LLC. It is normative for the applicable UL Product Certification Program(s); however, it is currently not part of the UL Standard(s) referenced below.

Product Category (CCN): DMIY/DMIY7

Standard Number: UL 749

Standard Title: Standard for Household Dishwashers

Edition Date: March 16, 2017

Edition Number: 10

Section / Paragraph Reference: 7.2.17

Subject: Appliance shipped from the factory without an outer enclosure installed

DECISION:

7.2.17 An appliance that is shipped from the factory with any of its outer enclosure panels ~~its side panels or back~~ uninstalled or omitted (e.g. kick or toe panel, side panels, or back) shall be plainly and permanently marked, at such a location that the marking will be visible when connections to the power-supply circuit are made, with the following or equivalent:

“WARNING: To reduce the risk of electric shock, fire, or injury to persons, the installer must ensure that the dishwasher is completely enclosed at the time of installation.”

8.1.1 Instructions providing information equivalent to the marking required by Clause 7.2.17 shall be packed with an appliance that is shipped from the factory with any of its outer enclosure panels uninstalled or its side panels or back omitted (e.g. kick or toe panel, side panels, or back).

RATIONALE FOR DECISION:

Clause 7.2.17 specifies marking requirements for appliances that are shipped from the factory with its side panels or back omitted, and Clause 8.1.1 requires a similar instruction.

Currently, some dishwashers are shipped without the kick (toe) panel installed to allow access to the field wiring terminals and proper field wiring installation. This also prevents damaging the kick panel when removed for field wiring installation.

This Certification Requirement Decision is intended to document present practice in requiring the same type of marking and instruction for dishwashers that are shipped with the kick panel omitted.
