SUBJECT: **Announced Outline of Investigation for Photovoltaic (PV) Wire (ZKLA)**

Summary of Topics:

This bulletin announces availability of an outline (dated June 21, 2005) covering photovoltaic wire. The outline states the product description, ratings, and test program for the product.

Underwriters Laboratories Inc. has issued an Outline of Investigation for Photovoltaic Wire. The Outline covers wire intended for use in the applications described in Section 690.31(A) of the 2005 National Electrical Code, NFPA 70.

Manufacturers interested in submitting photovoltaic wire for Listing should contact Customer Service staff at the UL office with which they normally conduct business.

The Subject 4703 Outline is available for purchase from COMM-2000 at 1414 Brook Drive, Downers Grove, IL 60515-1025, by phone in the USA and Canada: 1-888-853-3503, by fax in the USA and Canada: 1-888-853-3512, by phone from other countries: INT+1 415-352-2168, by fax from other countries: INT+1 630-932-7387, or from COMM-2000 on-line at <http://www.comm-2000.com>.
