## SCC FOREWORD

### National Standard of Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

UL Standard for Safety for Horticultural Lighting Equipment And Systems, ANSI/CAN/UL 8800:2019

First Edition, Dated August 30, 2019

### **Summary of Topics**

***The First Edition of ANSI/CAN/UL 8800:2019 has been issued to reflect the latest ANSI and SCC approval dates, and to incorporate the proposals dated March 1, 2019 and June 14, 2019.***

The new requirements are substantially in accordance with Proposal(s) on this subject dated March 1, 2019 and June 14, 2019.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

ANSI/UL 8800-2019

AUGUST 30, 2019

1

ANSI/CAN/UL 8800:2019

Standard for Horticultural Lighting Equipment And Systems

First Edition

August 30, 2019

This ANSI/CAN/UL Safety Standard consists of the First Edition.

The most recent designation of ANSI/UL 8800 as an American National Standard (ANSI) occurred on August 30, 2019. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, Title Page, Preface or SCC Foreword.

This standard has been designated as a National Standard of Canada (NSC).

## CONTENTS

|               |   |
|---------------|---|
| Preface ..... | 5 |
|---------------|---|

## INTRODUCTION

|                                      |   |
|--------------------------------------|---|
| 1 Scope .....                        | 7 |
| 2 Components .....                   | 7 |
| 3 Units of Measurement .....         | 7 |
| 4 Normative References .....         | 8 |
| 5 Glossary .....                     | 8 |
| 6 Organization and Application ..... | 9 |

## PART I – HORTICULTURAL LUMINAIRES

### CONSTRUCTION

|                                                                                                               |    |
|---------------------------------------------------------------------------------------------------------------|----|
| 7 General .....                                                                                               | 9  |
| 8 Mechanical Construction .....                                                                               | 9  |
| 8.1 General requirements .....                                                                                | 9  |
| 8.2 UV protection of polymeric materials .....                                                                | 9  |
| 9 Electrical Construction .....                                                                               | 10 |
| 9.1 General requirements .....                                                                                | 10 |
| 9.2 UV protection of polymeric materials .....                                                                | 10 |
| 9.3 Supply connections .....                                                                                  | 10 |
| 9.4 Connections to a remote power source .....                                                                | 10 |
| 9.5 Flexible cord .....                                                                                       | 11 |
| 9.6 Attachment plugs, mating receptacles, and connectors .....                                                | 11 |
| 10 LED horticultural luminaires .....                                                                         | 12 |
| 10.1 General .....                                                                                            | 12 |
| 10.2 Printed wiring boards .....                                                                              | 12 |
| 10.3 LED drivers, LED arrays (modules), LED control modules, LED packages, and LED self-ballasted lamps ..... | 12 |
| 11 Fluorescent horticultural luminaires .....                                                                 | 12 |
| 11.1 General .....                                                                                            | 12 |
| 12 HID horticultural luminaires .....                                                                         | 12 |
| 12.1 General .....                                                                                            | 12 |
| 12.2 Metal halide (MH) lamps .....                                                                            | 12 |
| 12.3 Lampholders .....                                                                                        | 12 |
| 12.4 Accessibility of double-ended lamp terminals .....                                                       | 13 |
| 13 Environmental Ratings .....                                                                                | 13 |
| 13.1 Damp and wet locations .....                                                                             | 13 |
| 13.2 Exposure to dust and water (IP Codes) .....                                                              | 13 |
| 14 Conformal Coatings .....                                                                                   | 13 |

### PROTECTION AGAINST INJURY TO PERSONS

|                                            |    |
|--------------------------------------------|----|
| 15 Photobiological Safety Assessment ..... | 13 |
|--------------------------------------------|----|

### PERFORMANCE

|                                  |    |
|----------------------------------|----|
| 16 General .....                 | 14 |
| 17 Normal Temperature Test ..... | 14 |
