Summary of Topics

This bulletin announces the availability of the Outline of Investigation for Horticultural Lighting Equipment, UL 8800

Underwriters Laboratories Inc. has issued an Outline of Investigation for Horticultural Lighting Equipment, UL 8800. The outline covers lighting equipment intended for use in a horticultural environment and installed in accordance with the National Electrical Code (NEC), ANSI/NFPA 70.

It is the intention of UL to work with horticultural lighting equipment manufacturers and other horticultural stakeholders to develop this Outline of Investigation for Horticultural Lighting Equipment into an American National Standard (ANSI/UL) standard in the near future. While this initial version of the outline of investigation simply records the current requirements, the first edition of the UL 8800 Standard will be presented in an IEC standards format to facilitate international adoption.

Manufacturers interested in submitting equipment for Listing should contact UL's Customer Service at 1-877-854-3577 or e-mail at cec@ul.com.

The UL 8800 Outline is available for purchase from COMM-2000 at 151 Eastern Ave, Bensenville, IL 60106, by phone in the USA and Canada: 1-888-853-3503, by fax in the USA and Canada: 1-888-853-3512, by phone from other countries: INT+1 415-352-2168, by fax from other countries: INT+1 630-932-7387, or from COMM-2000 on-line at <http://www.comm-2000.com>.
