

**CAN/ULC-S717.1:2017**

**STANDARD FOR FLAT WALL INSULATING CONCRETE FORM  
(ICF) UNITS – MATERIAL PROPERTIES**

**Prepared and Published by:**

**Approved by:**

**Standards Council of Canada  
Conseil canadien des normes**

Underwriters Laboratories of Canada (ULC) was established in 1920 by letters patent issued by the Canadian Government. It maintains and operates laboratories and certification services for the examination, testing and certification of appliances, equipment, materials, constructions and systems to determine their relation to life, fire and property hazards as well providing inspection services.

Underwriters Laboratories of Canada is accredited by the Standards Council of Canada as a Certification Organization, a Testing Organization, and an Inspection Body under the National Standards System of Canada.

ULC Standards develops and publishes standards and other related publications for building construction, security and burglar protection, environmental safety, electrical equipment, fire protection equipment, gas and oil equipment, thermal insulation products, materials and systems, energy use in the built environment and electrical utility safety.

ULC Standards is a not-for-profit organization and is accredited by the Standards Council of Canada as a Standards Development Organization.

National Standards of Canada developed by ULC Standards conform to the criteria and procedures established by the Standards Council of Canada. Such standards are prepared using the consensus principle by individuals who provide a balanced representation of interests relevant to the subject area on a national basis.

ULC is represented across Canada as well as many countries worldwide. For further information on ULC services, please contact:

Customer Service: 1-866-937-3852

## National Standard of Canada

A National Standard of Canada is a standard developed by an SCC-accredited Standards Development Organization (SDO), and approved by the Standards Council of Canada (SCC), in accordance with SCC's: *Requirements and Guidance-Accreditation for Standards Development Organizations*, and *Requirements and Guidance-Approval of National Standards of Canada Designation*. More information on National Standard requirements can be found at [www.scc.ca](http://www.scc.ca).

An SCC-approved standard reflects the consensus of a number of experts whose collective interests provide, to the greatest practicable extent, a balance of representation of affected stakeholders. National Standards of Canada are intended to make a significant and timely contribution to the Canadian interest.

SCC is a Crown corporation within the portfolio of Industry Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts. Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

Users should always obtain the latest edition of a National Standard of Canada from the standards development organization responsible for its publication, as these documents are subject to periodic review.

### CORPORATE HEADQUARTERS

Underwriters Laboratories of Canada  
7 Underwriters Road  
Toronto, Ontario M1R 3A9  
Telephone: (416) 757-3611  
Fax: (416) 757-9540

### REGIONAL OFFICES

#### PACIFIC OFFICE

13775 Commerce Parkway, Suite 130  
Richmond, British Columbia V6V 2V4  
Telephone: (604) 214-9555  
Fax: (604) 214-9550

#### EASTERN OFFICE

6505, Rte Transcanadienne, Suite 330  
St-Laurent, Québec H4T 1S3  
Telephone: (514) 363-5941  
Fax: (514) 363-7014
